If not careful and issue Accessation Notice may be served, with mean that each Served or Covered Boards shall become due not insuppose the assignant the busine and following which, it Notice to Pray with American the Covered Boards in accordance with the Causerbee Profile of Prayments. Whilst an Asset Coverage Test Breach Notice remains outstanding, no call Capital Contributions may be distributed to HSBEU U. Blass jub on a Capital Debtaufour.
Interest Rate Shortfall Test	The amount of income that it next LLP Paymert Period to to it is insufficient to cover the each Term Advance and to the Provider(s) and other senior thereto.	he LLP expects to receive in the gether with other funds available we would be amounts due under he Covered Bond Swap expenses ranking in priority	no	Service to notify the LLP and firequent by LLP. Selder to make all reasonable indexious to offer to sel nem mortgages to but CP on or before the real calculation Distals were mortgages will write HBBC-Variable Rates and/or other discretionary rates or margins, and be sufficient to ensure there would not be an interest Rate Shortfall on future Calculation Dates.
Issuer Event of Default	9(a) (Issuer Events of Defaul occur.	s or acts provided in Condition it) of the Programme Conditions	no	Faci cance an issued Acceleration Notice may be served, which makes that each Series of Covered Bonds shall be some as and reposition as against the issues of following which, a Notice to Pay will be served on the LLP, misering that the LLP shall be required to make payments of Guaranteed Amounts on the Covered Bonds in accordance with the Guarantee Pricing of Payments.
Amortisation Test	Acceleration Notice and/or w Amortisation Test Aggregate Sterling Equivalent of the agg Outstanding of the Covered I relevant Calculation Date.	e Asset Amount is less than the gregate Principal Amount Bonds as calculated on the	no	Constitutes an ILLE Fever of Default which if not cause, means that a LLP. Accessration holder any be served, with means that each Server of Demoe Board shall be come and engregate as against the Issaer (if not already due and repopulate against it following an Issuer Evert of Default) and as against the LLP, and the Security shall become enforceable.
Weld Shortful Test	Following an Issuer Event of outstanding, the mortgages ( Rate Swap) must give an am 0.40%.	Default which remains once accounting for the Interest nual yield of less than SONIA +	no	LLP variable rate and other discretionary rates and/or margins may be increased.
LLP Event of Default	Any of the conditions, events 9(b) (LLP Events of Default) occur.	s or acts provided in Condition of the Programme Conditions	no	Fed. cand. a LLIP Acceleration beloes may be served, within moure that each factor of Covered Bonds shall become four and repoples to again the locate (for other locate) for other locate and the state of the acceptable against at following an Insuer Event of Default) and as against the LLP, and the Security shall become enforceable.
Perfection	Any of the conditions, events (Perfection of the Assignment Agreement occur.	s or acts provided in Clause 7 rt) of the Mortgage Sale	no	Triggers the requirement to prepare perfection of title documents but not the steps necessary to perfect legal title.

Glossary	
Ref Reporting period	Description  Reporting period runs from and including, the eleventh day of a calendar month to, and including, the tenth day of the following calendar
	reporting period runs from and including, the eleventh day of a calendar month to, and including, the tenth day of the following calendar month.
True Balance	True Balance means, for any Mortgage on any relevant date of determination, the aggregate (but avoiding double counting) of the following: (a) the aggregate of all principal amounts advanced to the relevant Borrower; and (b) Capitalised Expenses; and (c) Capitalised Interest; and (d) (to the extent not covered by paragraphs (b) and (c) above) Capitalised Arrears; and (d) (to the extent not covered by paragraphs (b) and (c) above) Capitalised Arrears; and (e) any other amount (including, for the avoidance of doubt, Accrued Interest and Arrears of Interest) which is due or accrued (whether or not due) and which has not been paid by the relevant Borrower and has not been capitalised in accordance with the relevant Mortgage.  Conditions or with the relevant Borrower's consent but which is secured or intended to be secured by that Mortgage, less any repayment or payment of any of the foregoing made on or before the end of the Business Day immediately preceding the date of determination and excluding any retentions made but not released and any Additional Borrowings committed to be made but not made by
	the end of the Business Day immediately preceding the date of determination.
Current non-indexed LTV	Current non-indexed LTV is the aggregate true balance of all loans within a mortgage account, divided by the value of the property securing the loans in that mortgage account at the date of the latest lending.
Current indexed LTV	Current non-indexed LTV is the aggregate true balance of all lears within a mortgage account, divided by the indexed where the balance of all lears within a mortgage account, divided by the indexed value of the property securing the leans in that mortgage account at the reporting date. Indexation is applied on a regional basis to property valuations on a quarterly basis in January, April, July and October of each year using the Halfark House Price Index published by Markit Group Limited. Indexed LTV is reported as zero where a customer borrower paid more than the outstanding balance of a mortgage.
Monthly Constant Pre-Payment Rate (CPR)	Monthly Constant Pre-Payment Rate (CPR) is calculated as the total unscheduled principal receipts received over the last Calculation Period, divided by the total principal amount outstanding of the loans comprised in the portfolio at the beginning of the last Calculation Period. Unscheduled principal receipts does not comprise payments from HSBC UK Bank plot for the repurchase of loans from the portfolio. These are annualised using the formula: 1-((1-M)*12) where M is the monthly CPR expressed as a percentage.
Monthly Principal Payment Rate (PPR)	Monthly Principal Payment Rate (PPR) is defined as the total scheduled and unscheduled principal receipts received over the last Calculation Period, divided by the total principal amount outstanding of the loans comprised in the portfolio at the beginning of the last Calculation Period. These are annualised using the formula: 1-((I-M)*12) where M is the monthly PPR expressed as a percentage.
Quarterly Average CPR/PPR	Quarterly Average CPR/PPR is the average of the three most recent monthly CPR / PPR expressed as a percentage. These are annualised using the formula: 1-((1-M)^12) where M is the Quarterly Average CPR/PPR expressed as a percentage.
Arrears  Mortgage collections	Number of Months in Arrears means, as at the date of determination in respect of a Mortgage, the result of the calculation (A-B) / C, where:  (a) 'A' equals the sum of all Monthly Payments in respect of advances under that Mortgage that were due and payable by the relevant Borrower on any due date up to that date of determination;  (b) 'B' equals the sum of all payments actually made by that Borrower in respect of that Mortgage up to that date of determination (the difference between 'X' and 'B' being the 'Tarears balance'); and (c) 'C' equals the then Monthly Payment in respect of all advances under that Mortgage.  Mortgage Collections include all each receipts on a mortgage within the portfolio excluding monies paid by HSBC UK Bank pic in respect
Seasoning	of mortgages repurchased from the portfolio.
Remaining Term	Seasoning refers to the number of months since the date of origination of the loan.  Remaining Term refers to the number of remaining months to maturity of each loan.
Weighted Average (WA)	All Weighted Average (WA) calculations are weighted by True Balance.
Supplementary notes	
Rof	Description
Counterparties, Ratings table  Accounts, Ledgers table	The swap provider(s) rating trigger disclosed is the next trigger point. There may be subsequent triggers, as detailed in the relevant swap agreement.  There are no minimum ratings for the Issuer, although its ratings are linked to certain programme triggers - see the Programme Triggers section.  Swap details relate to interest rate swap and exclude covered bond swaps. HSBC UK Bank pic entered into a fixed interest rate swap to hedge against some or all possible variances between interest payable on cover pool and compounded daily SONIA rate. The waterfall reported (including intercompany Loan Settlement) is that which will be made in the next reporting period.   Members' profit is paid once a year, on the LLP payment date, which the anniversary of the programme establishment falls into.
